

Korlátlan MATLAB license egyetemek részére

Unlimited MATLAB license for universities

KIRSCH Gabriel, SciEngineer, üzletfejlesztési menedzser

KERTÉSZ János, Sciengineer, regionális értékesítési menedzser - akadémia

Astract

The MATLAB Campus License is an annual university license that allows all students, faculty, and researchers at the university to use MATLAB products legally, whether on campus computers or on their own computers, on campus, offline, or at home. More information about the MATLAB Campus License available at the MathWorks website:

<https://www.mathworks.com/products/matlab-campus.html>

Keywords: MATLAB, university, lecturers, researchers, students

Kivonat

A MATLAB Campus License egy olyan, 12 hónapos periódusra vonatkozó, évente megújítható egyetemi license, amellyel az egyetem minden hallgatója, minden oktatója és minden kutatója jogtiszttán, akár egyetemi számítógépen, akár saját számítógépen, az egyetemen, offline vagy otthoni környezetben is használhatja a MATLAB termékeket oktatási és non-profit kutatási célra.

Kulcsszavak: MATLAB, egyetem, oktatók, kutatók, diákok

The Benefits of the MATLAB Campus-Wide License

🌐 2000+ universities around the world

📖 Teaching, research, and student projects in all fields of engineering, science, economics, and finance

Join an ever-growing community of those who want to forge a better future through accessible and human-centered research and technology!

The software can be used by

- Researchers
- Students
- Teachers
- Colleagues

One license for everyone!

- Dedicated MATLAB portal for your university
- Installation on university-owned and private personal computers
- Access to the Full Suite
- Access to add-ons: Online Trainings, Grader, Online, Mobile and more
- Annual license unique price based on the number of relevant students

Advantages:

For Teachers and Researchers

- Multidisciplinary teaching and researching
- Latest unified software version for everyone
- On-line tools for teaching
- Interesting curriculum with less expenditure of time
- More time for researching instead of coding

For IT

- Less administration, easy license management

For the Whole University

- Increasing the chances of students in the labour market
- Improving the university's competitiveness
